

# GUNUPURU THARUN KUMAR

Full Stack Web Developer | Django | Node.js | JavaScript

✉ gtharunkumar148026@gmail.com | ☎ +91 93924 82590 | [LinkedIn](#) | [GitHub](#)

## CAREER OBJECTIVE

Motivated B.Tech IT student with hands-on experience in full-stack web development seeking a Web Development Internship/Jobs. Proficient in Django, Node.js, JavaScript, and MongoDB with a proven track record of building real-world web applications. Eager to contribute to impactful research and industrial projects, and grow through a challenging, innovation-driven environment.

## EDUCATION

| Degree              | Institution                                                | Board/Univ.       | Year | Grade    |
|---------------------|------------------------------------------------------------|-------------------|------|----------|
| B.Tech (IT)         | Anil Neerukonda Institute of Technology & Sciences (ANITS) | Andhra University | 2027 | 8.9 CGPA |
| Intermediate (12th) | Sasi Junior College                                        | State Board       | 2023 | 93.7%    |
| SSC (10th)          | Sri Chaitanya Techno School                                | State Board       | 2021 | 99.3%    |

## TECHNICAL SKILLS

**Programming Languages:** C, C++, Java, Python

**Web Technologies:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, Django, Node.js, Express.js

**Databases:** MongoDB, SQLite (Django ORM)

**Version Control:** Git, GitHub

**Tools & Platforms:** Microsoft Excel, PowerPoint, VS Code

**Concepts:** RESTful APIs, User Authentication, CRUD Operations, MVC Architecture, Session Management

## INTERNSHIP & CERTIFICATIONS

**Django Web Development – Online Internship** | APSSDC

July 2025

Certificate: [drive-link](#)

- Completed a structured online internship focused on Django web framework.
- Gained practical experience in database integration, user authentication, and CRUD operations.
- Built and deployed web applications using Django ORM and Python backend.

## PROJECTS

**Blood Bank Management System**

2025

Tech Stack: Django, Python, SQLite, Bootstrap, HTML/CSS

- Designed and developed a full-stack web application for managing blood donations, requests, and donor records.
- Implemented multi-role user system (admin, donor, requester) with secure login and access control.
- Built real-time blood availability tracking with Django ORM and integrated CRUD operations across the platform.

- Focused on responsive UI using Bootstrap ensuring cross-device compatibility.

### Travel Explore – Full Stack Web Application

2024

**Tech Stack:** Node.js, Express.js, MongoDB, HTML5, CSS3, Bootstrap, JavaScript | [GitHub Link](#)

- Developed a feature-rich travel information platform enabling users to search and explore tourist destinations.
- Implemented secure user authentication including signup, login, and session management using Node.js and Express.js.
- Integrated MongoDB for scalable, schema-flexible data storage of user and destination records.
- Crafted a clean, mobile-responsive front-end interface using HTML, CSS, Bootstrap, and JavaScript.

### RESEARCH INTERESTS

---

- Web Application Security and Secure Authentication Protocols
- Artificial Intelligence and Machine Learning
- Network Security and Encryption Techniques
- Distributed Systems and Cloud Computing

### ACADEMIC ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

---

- Ranked in top 0.1% in Physical Education — received Certificate of Merit.
- Represented school at regional and interstate Science Quiz competitions.
- Actively led event management and coordination activities at school level.
